## Summary

I am a full stack software engineer and designer equipped with intense determination and motivation to build complex yet simple products people love and improve their daily lives.

## Experience

### SOFTWARE ENGINEERING IMMERSIVE PROGRAM

General Assembly

Aug 2020 - Present (4 months +)

Full-stack software engineering immersive student in an intensive, twelve-week, 450+ hour program focused on product development fundamentals, object-oriented programming, MVC frameworks, data modeling, and team collaboration strategies. Developed a portfolio of individual and group projects.

### Freelance Software Engineer

Freelance

Mar 2015 - Sep 2020 (5 years 7 months)

- (Web App) Multiple fashion web apps. One featuring a way to select preferences and have an outfit generated on screen. Another being a creative showcase and store for a clothing company.
- (Web App) Multiple easily editable portfolios for UI/UX designers, photographers, etc.
- (Web App) Music web app which takes dominant colors from album art and displays the colors in the background by fading in/out to the beat of the current song.
- (iOS App) 3 social media apps sharing photos, music, and text with others. Created front end and back end.
- (iOS App) Business card app which displays your virtual business card inside your Apple Wallet. Shared via QR code.
- (iOS App) Music app allowing users to play music from their phone where other users can join in and listen to the same song at the same time.

### Chef

Longhorn Village

Feb 2019 - Aug 2020 (1 year 7 months)

Organized and prioritized work to complete assignments in a timely, efficient manner.

Assisted with all aspects of the creative process from creating classy menus, managing cooking and service routines, and assigning tasks.

Maintained meticulous work logs and notified supervisors of progress and setbacks.

## Education
